

Model No. : LWC6K6-220D38014-A
Product Name : 6.6KW On Board Charger Fan

Date	Jul. 7th, 2020	Version	V01	Remark	Model No. changed to LWC6K6-220D38014-A from AR6K6-220D380A-I

6.6KW On Board Charger Fan

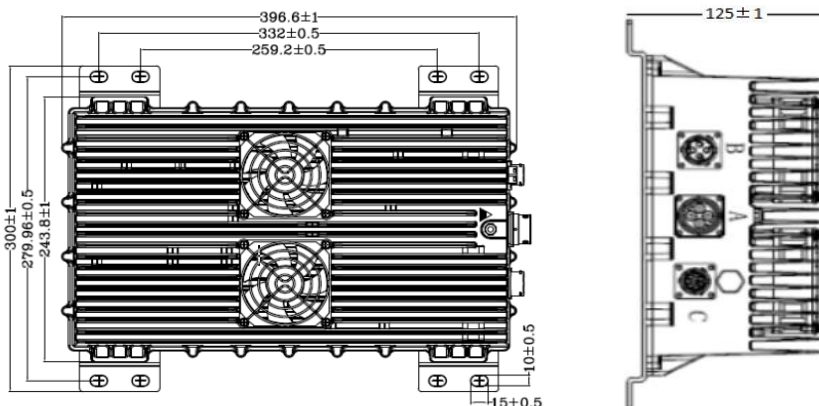

★ Features

- 1 Charging Standard: IEC
- 2 Output Power : 6.6KW
- 3 Input Voltage : 90-264VAC
- 4 Output Voltage : 200-450VDC
- 5 Dimensions : 396x244x126mm
- 6 Cooling System : Fan
- 7 Communication Method : CAN-BUS
- 8 Weight: ≤12KG

Specification

Description	Technical specifications	Remark
Rated output power	6.6KW	
Input voltage range	90-264VAC	
Output voltage range	200-450VDC	
Maximum output current	20A	
Auxiliary power VCC	9-18VDC	VCC
Efficiency	≥96%	Rated voltage
Voltage accuracy	±1%	
Current accuracy	±3%	
Wake up method	AC · CP/PP · EN	
Communication method	CAN-BUS	
Quiescent Current	≤2mA	The battery current is consumed in the sleep/stop state.
Protection characteristics	Input over and under voltage, output over and under voltage, over temperature protection, over current protection, output short circuit protection, battery reverse connection protection, communication fault protection	
Electromagnetic compatibility characteristics	GB/T18387-2008 · EN 55022	
Operating temperature	-40-85°C	
Dimensions	396x244x126mm	
IP Rating	IP67 (except fan)	
Cooling System	Fan	
Weight	≤12KG
