1 Product Overview

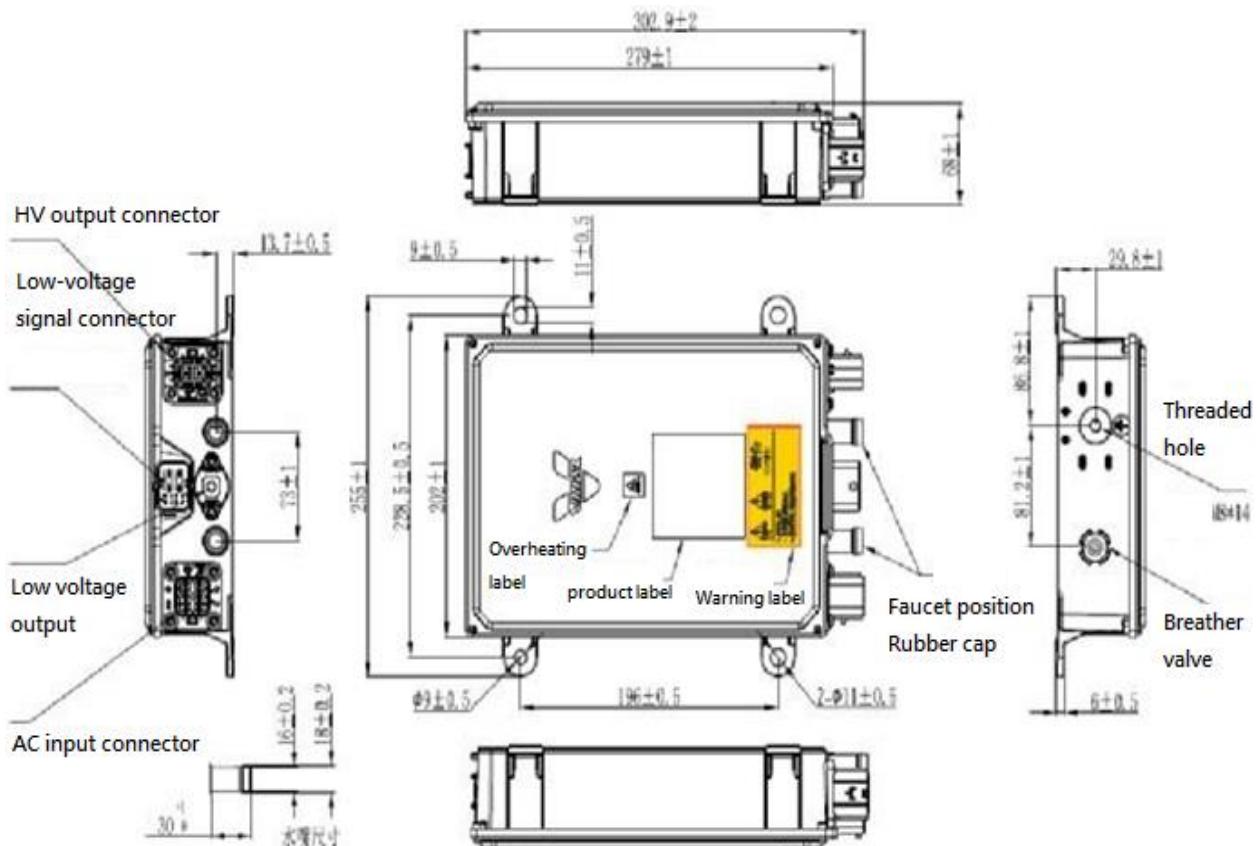

1.1 Description

The 2-in-1 product assembly consists of OBC and DCDC. OBC converts AC power to high-voltage DC power to charge the vehicle's power battery; on-board DCDC converters convert high-voltage DC power to the required low-voltage DC power to power the vehicle's low-voltage network and charge low-voltage batteries.

1.2 Structural dimensions

Dimensions: 279 * 202 * 68mm (without water nozzle, connector, mounting bracket); Weight: 5.3KG
